

Stage 2 Leaves and capsules

A. MOSTLY Smooth-barked (MAY HAVE ROUGH-BARKED BASE)

ADULT LEAVES	CAPSULES	POSSIBLE SPECIES	
SIDE VEINS ACUTE	 lanceolate	 <ul style="list-style-type: none"> • cup-shaped to truncate-globose • pedicellate 	 29 <i>Eucalyptus elata</i>
	 oblique	 <ul style="list-style-type: none"> • cone-shaped to cup-shaped • pedicellate 	 38 <i>Eucalyptus regnans</i>
	 falcate	 <ul style="list-style-type: none"> • cone-shaped to cup-shaped • sessile 	 37 <i>Eucalyptus pauciflora</i>
SIDE VEINS WIDE-ANGLED AND REGULARLY-SPACED	 ovate to broad-lanceolate	 <ul style="list-style-type: none"> • pedicellate • cone-shaped 	 7 <i>Eucalyptus ovata</i>  8 <i>Eucalyptus strzeleckii</i>
		 <ul style="list-style-type: none"> • sessile • cup-shaped to cylindrical 	 9 <i>Eucalyptus kitsoniana</i>
		 <ul style="list-style-type: none"> • pedicellate • cup-shaped to barrel-shaped 	 24 <i>Eucalyptus melliodora</i>  27 * <i>Eucalyptus cladocalyx</i>  28 * <i>Corymbia maculata</i>
	 lanceolate to narrow-lanceolate	 <ul style="list-style-type: none"> • cone-shaped • pedicellate 	 8 <i>Eucalyptus strzeleckii</i>  15 <i>Eucalyptus viminalis</i>
		 <ul style="list-style-type: none"> • cone-shaped with thickened disc • 1 or 3 per cluster 	 14 <i>Eucalyptus globulus</i>
		 <ul style="list-style-type: none"> • cup-shaped to hemispherical • disc ascending 	 15 <i>Eucalyptus viminalis</i>  16 <i>Eucalyptus rubida</i>
		 <ul style="list-style-type: none"> • hemispherical • disc ascending • valves projecting 	 1 <i>Eucalyptus tereticornis</i>  2 <i>Eucalyptus camaldulensis</i>
		 <ul style="list-style-type: none"> • sessile • cup-shaped 	 11 <i>Eucalyptus carolanae</i>  13 * <i>Eucalyptus nitens</i>
		 <ul style="list-style-type: none"> • pedicellate • cup-shaped 	 12 <i>Eucalyptus cypellocarpa</i>  24 <i>Eucalyptus melliodora</i>
		 <ul style="list-style-type: none"> • barrel-shaped • pedicellate 	 27 * <i>Eucalyptus cladocalyx</i>  28 * <i>Corymbia maculata</i>
